Experience

UX Summer Intern

Boston Productions Inc.

May 2018 - August 2018

- Developed company standard UX processes; executed User Testing, Playtesting, and analysis afterwards, kept documentation up to date
- Designed wireframes for many new projects and created Invision prototypes to show clients functionality. Designed graphics for projects in development following proper branding styles
- Participated in brainstorm sessions and project meetings (with and without clients)

Project Manager, UX Designer

Brandeis University - AllergEat

October 2018 - December 2018

- Delegated tasks, kept team members motivated, fostered environment conducive to sharing ideas
- Created prototypes from paper to high fidelity digital screens created in Illustrator and used in Invision, ran many usability tests, and conducted thorough product-market fit research

UX/UI Designer and Researcher

University of Queensland - UQ Lyfe

July 2017 - November 2017

- Created mockups, wireframes, and prototypes to support user personas created and subsequent product ideas developed by team; ran usability tests on each iteration from low to high fidelity
- Created high fidelity prototype in Photoshop and functional prototype with HTML/CSS/JS

Product Designer, UX Researcher

University of Queensland - Spacwars

July 2017 - November 2017

- Designed sprites, and backgrounds for 2D isometric game and created soundtrack; Prototyped, user tested and documented features in game
- Worked in feature group of 4 within team of 50
